

Statement of Work

Notice to Proceed (NTP) to San Juan Basin Health Department (SJBHD)

Effective 8/6/2015, please provide the following services and support to facilitate the EPA response action for the Gold King Mine (GKM) Release, as directed by the EPA On-Scene Coordinator (OSC) and Unified Command (UC) or Incident Command (IC) until 9/30/2015 unless an amendment to this NTP is endorsed by all parties:

1. Provide up to 6 staff to the UC/IC and Joint Information Center (JIC) to respond to community environmental health concerns related to the GKM release.
2. Provide staff assistance to the UC/IC for surface and ground water quality monitoring plans, sediment composition monitoring plans, and dissemination of information to the public related to the GKM release, as directed by the UC/IC. Up to 6 staff may be required at the direction of the UC/IC.
3. Provide staff assistance to the UC/IC for preparing demobilization plans and transitioning monitoring and communications responsibilities to SJBHD. Up to 6 staff may be required at the direction of the UC/IC.
4. Account accurately for personnel hours incurred under Tasks 1-3. Hours may only be charged for personnel when they are working directly on the response effort. Recipient shall submit a proposed billing rate detailed for each staff member working on the response along with their hours worked.
